Medical Screening Tests Not Covered By Your Vision Plan

Visual Field Test

(Our doctor's highly recommend this test)

Loss of your central or peripheral vision is slow, painless and doesn't affect the clarity of your vision. Retinal and neurological disease can cause permanent tissue and nerve damage resulting in blindness. Some of the major causes of visual field defects are: diabetes, high blood pressure, stroke, macular degeneration, eye cancer, brain tumors, multiple sclerosis, glaucoma and retinal detachment. If you are experiencing light flashes, floaters or haziness in your field of view it might be a sign or symptom of retinal detachment.

The visual field test will accurately map out blind spots related to the above conditions.

Our customary fee is \$85 as a courtesy your fee is \$ 45.

Routine Vision Examination and Test Definitions

Both the **Comprehensive Eye Health Examination** and the **Refractive Vision Test** are routinely performed when you come for your annual eye health examination. Both may be covered by your vision plan but not in every case.

The Comprehensive Eye Health Examination: Involves the detection, diagnosis, treatment and management of eye diseases.

The Refractive Vision Test: Testing the powers of your eyes, the determination of your eyeglass prescription.

Fee for Comprehensive Eye Exam and Refraction for a **new patient**: \$177 (unless covered by insurance or vision plan)

Fee for Comprehensive Eye Exam and Refraction for a **previous patient**: \$147 (unless covered by insurance or vision plan)

I Accept Yes No

The Contact lens Examination: Do you currently wear contacts? **Yes No** (If yes please keep reading)

Texas State Law requires that contact lens wearers have a yearly contact lens examination in order to renew their prescription or buy new lenses. The contact lens exam **is not** part of the comprehensive eye health or refractive vision test examinations. Contact lens patients require additional testing, time, measuring and monitoring to evaluating the design and fit of their current lenses, the health of the eye as it relates to contacts or in the case of a new wearer, their suitability to wear contacts.

(The contact lens fee varies with complexity of the lens design and diagnostic fitting time. **Insurance or vision benefit plans may contribute an allowance. Ask for more details**) **I Accept Yes No**

I certify that I have read and understand the information stated above and agree to its terms and conditions.
